RE: United States v. Marko Boskic
Cr. No. 04-10298-DPW

Dear Attorney Stern:

In the course of the investigation, recorded conversations were made of the defendant and a cooperating witness. It is the government's intention to seek a protective order precluding you and your client from sharing the substance of those conversations and the identity of the cooperating witness with any third party on the grounds that such disclosure would pose a risk of harm to the witness. Please let me know whether you assent to such a protective order. Thank you.

Very truly yours,

MICHAEL J. SULLIVAN
United States Attorney
